

Construction of the plant LLC “Air Liquide Kuzbass” for the production of industrial gases in the territory of Novokuznetsk

Project's cost 12.87 B RUR

Implementation period **3.0 y.**

- Name

Construction of the plant LLC “Air Liquide Kuzbass” for the production of industrial gases in the territory of Novokuznetsk

- Project type

investment project

- Description

Air Liquide is a world leader in gases, technologies and services for industry and healthcare, with a presence in 78 countries, approximately 64,500 employees and more than 3.8 million customers and patients. Air Liquide in Russia currently operates 17 production sites in key regions. Over 600 employees are responsible for delivering products and services to over 1,700 customers. Air Liquide Kuzbass LLC also supplies liquid cryogenic products for the needs of industrial enterprises in the region, for example, an Air Liquide plant was built in Novokuznetsk to produce technical gases for delivery through pipelines for the needs of ZSMK EVRAZ.

- Project proponent

«AirLiquide Kuzbass» LLC

- Address

Kemerovo Region - Kuzbass region, Novokuznetsk city, Transportnaya street (Kuibyshevsky district), house 77b, office 101

- Branch of economic

Chemical Industry

- Production

Industrial gases (oxygen, nitrogen and argon) in gaseous form and liquid cryogenic products (cryoproducts)

- Markets

Most of the manufactured products will be supplied to the main consumer - EVRAZ ZSMK JSC. In terms of the supply of products in liquid form, the sales market is various industrial consumers in the region.

- Design capacity

The total amount of production (in terms of tons of oxygen) is about 3 thousand tons per day.

- Reaching the design capacity (years)

3

- Infrastructure provision

Water supply

Sewerage

Electric power

Heat supply

Highway

Internet, cellular network
